

REVISED NOTICE OF AVAILABILITY AND OPPORTUNITY TO COMMENT
DATED June 11, 2020

**DRAFT ENVIRONMENTAL IMPACT REPORT AND DRAFT WASTE DISCHARGE
REQUIREMENTS FOR AGRICULTURAL WASTE DISCHARGES FROM IRRIGATED
LANDS WITHIN THE CENTRAL COAST REGION**

California Regional Water Quality Control Board, Central Coast Region (Central Coast Water Board), as lead agency under the California Environmental Quality Control Act (CEQA), has prepared a Draft Environmental Impact Report (EIR) for waste discharge requirements regulating the discharge of agricultural waste from irrigated lands within the Central Coast Region, "Agricultural Order for Discharges to Irrigated Lands" (Agricultural Order 4.0). The Central Coast Water Board has also prepared the Draft Agricultural Order 4.0. Both documents are available for public review and comment.

The public review period for the Draft EIR and Draft Agricultural Order 4.0 is from February 21, 2020 until June 22, 2020. During the public review period, Central Coast Water Board staff will hold public workshops on the Draft EIR and Draft Agricultural Order 4.0; staff will provide notice at least 14 days prior to the workshops.

The proposed project (Draft Agricultural Order 4.0) is the issuance of a permit regulating waste discharges from irrigated lands throughout the central coastal region. The purpose of Agricultural Order 4.0 is to protect and restore beneficial uses and achieve water quality objectives specified in the Basin Plan for commercial irrigated agricultural areas in the central coast region. The proposed project would replace the existing permit regulating agricultural discharges (Agricultural Order 3.0).

The Draft EIR identified potentially significant environmental impacts to agricultural resources.
